Specialist Knowledge for Teaching Mathematics (SKTM)

Secondary Non-specialist Teachers

This highly regarded programme from the National Centre for Excellence in the Teaching of Mathematics (NCETM) and the Maths Hubs Network offers secondary non-specialist maths teachers valuable CPD, focusing on subject knowledge and pedagogy.

With the pressures of timetabling and the need to deploy staff flexibly, many secondary schools find that they have teachers teaching outside their specialism. This can mean teachers from a range of subject backgrounds teaching in maths departments, tackling complex topics, and having to plan lessons with unfamiliar content.

If you currently have non-specialists teaching in your maths department, and want to give them the opportunity to hone their subject knowledge and classroom practice, this programme is ideal.

Testimonials

"I have found it really useful to see different ways of explaining or teaching concepts." – Previous participant

"From attending the programme, the non-specialist teacher's confidence in his maths and the teaching of maths has improved. The expectations of his students are now higher"

– Head of Maths
